Commission Business

The Commission unanimously approved the Minutes of the April 17, 2002, meeting, as written.

Buddy Johnson requested, and the Commission unanimously ratified the reinstatement of licensure status for: Rita A. Hallenbeck, Bolley L. Johnson, Dacia G. Nikolas, and Boudy Shalam who had met all the requirement of reinstatement.

Chairman Marie Powell introduced Deputy Secretary Geoff Becker. Mr. Becker stated that he came down again this month to give another update relating to the Department’s projects and the recent special Legislative Session regarding budget issues. Mr. Becker reported that Release III of the Project would begin on May 28, stating that the remainder of Professions and the Division of Technology and Regulation will be incorporated into the new system. He added that with each release more customers will have on-line access to information to determine whether a licensee in any profession regulated by the Department is current and whether there has been any discipline against the licensee. Mr. Becker further added that the new system would assist the public in choosing an individual to perform services requiring a license.

Mr. Becker added that the Department was chosen from among 65 other non-profit organizations to receive the Smithsonian Institute Honors Award for its licensing system and re-engineering project. He added that the Department is receiving recognition, not only in Florida, but on an international level as well.
Mr. Becker further reported that the Department records reflect that 36,000 licensees have activated their accounts on line. Mr. Becker stated that this is about ten percent of the licensees that have been moved to the new system. He added that without any media advertising, the Department has been able to attract a large segment of the licensed population to log in, set up accounts and perform transactions on-line. Further, he stated that over 100,000 callers have used the self-service phone system, which is saving numerous man-hours, enabling employees to assist customers in other ways, stating that this is roughly thirty-five percent of the calls received.

Mr. Becker stated that the Department plans on attending a number of local FAR chapters, and setting up a booth to demonstrate how to utilize the on-line system and added that the Department has already registered for the FAR conference in August.

Mr. Becker stated that Pat Parker, Director of Communications and her staff were present to demonstrate the on-line system. He encouraged brokers and salespersons to register if they are not currently set up on-line.

Mr. Becker also informed the Commission that the Department’s budget which passed on Monday, is approximately $128 million, an approximate $3-million dollar deduction from last year. He reported that the full time employees for the Department will total 1,568. Mr. Becker encouraged Director Johnson to send the Commission a copy of last year’s budget so that they can compare it to this year’s budget when it become available. Additionally, he stated that the Department would be developing its spending plans over the next few months and he welcomes the Commission’s input as it relates to the Division.

Finally, Mr. Becker informed the Commission that the Department plans meeting with all the Board Chairs to discuss major issues and concerns, on a quarterly basis. At the May meeting, the main topic of discussion concerns the budget.

Commissioner Valdes expressed his concerns about the new system, specifically regarding brokerage relationships or lack thereof. Mr. Becker stated that he would look into it and get back to him.

Commissioner McDonell reported that the Secretary had mentioned that one of the benefits of being the first state in the nation reengineering its system is that the State of Florida will be an example for other states. She added that the Secretary stated that since Florida would be the first state to use this system, it would receive funding when other states buy the same program. Mr. Becker stated that was correct. He added that the Department, however, would not show any profit in this year’s budget.

Commission Valdes inquired as to what is the will the benefit of this system other than saying the Department is high tech. Mr. Becker responded that the benefit is the ease of use to the million or so licensees because it is customer friendly in that the customer may log in to the system at their convenience and make changes to their license or renew, when applicable. He added that the Department is saving man-hours but ultimately the Department is saving the customer and the licensee a lot of frustration trying to access various services the Department
provides. Mr. Becker then asked the Commission if it had any other questions, there being none, Chairman Powell directed Nancy Campiglia to proceed with the Legal agenda.

**Legal Matters**

Upon recommendation of the Legal Section, the Commission unanimously issued 31 Escrow Disbursement Orders (EDO) and 4 Orders of denial. A list of the Orders is attached to the official minutes.

At approximately 9:00 a.m., the Commission took up the Legal Agenda, consisting of 16 cases. It heard 13 cases, continued 1 and withdrew 2. The Commission’s decisions on these matters are attached to the official minutes.
