The Claimant is requesting the Commission to waive the requirement for obtaining a civil judgment against the licensee in this matter. Mr. Solla stated that the death of the Licensee does not alter the landlord/tenant relationship between the claimant and the property owner and that this claim is a matter properly determined pursuant to the provisions of the Florida Residential Landlord Tenant Statute, Chapter 83. Mr. Solla advised that the Claimant has failed to satisfy the statutory requirements for payment from the Recovery Fund. The Commission considered the facts and circumstances. Commissioner Enzor inquired how much money is in the trust for recovery fund claims. Assistant General Counsel Solla stated the department determined that there is approximately $240,000 to pay claims for the remainder of this Fiscal Year. Commissioner Enzor asked if there is any chance of getting the monies back that have been diverted previously from this account. Director Watkins stated that the division would not be able to request that the Legislature return any money already diverted and that there is a triggering provision when the total sum of funds drop below a certain amount. Director Watkins explained that the Legislature only allocates spending authority for a portion of the funds maintained in the account and stated she will confirm the amounts and report back to the Commission. Real Estate Application Background Question

Director Watkins stated that the Commission requested this item be discussed for possible amendments to question one on the application. The Commission entered into discussion. Commissioner Furst suggested changing some of the formatting. Commissioner Ruffier suggested underlining and capitalizing specific words and sentences. Commissioner Enzor state that he is in agreement with Commissioner Ruffier’s suggestions. Director Watkins stated that the question is
ultimately designed to provide the Commission with the information to determine the applicant’s trustworthiness and character and the word “ever” is pretty clear. Director Watkins stated that the applicant has the ability to request FDLE and county records to obtain their criminal history and there needs to be some burden put on the licensee. The Commission agreed that one of the reasons for question one it to test the applicant’s honesty relating to the applicant’s criminal background.

Commissioner Furst stated her intent in this discussion is to determine if there is any way to present this question in a manner that drives home the intent of the question. Commissioner McCoig stated that questions two through three are much shorter and applicants rarely answer them inaccurately so perhaps the department can shorten the question to be more direct and to the point, or break it up into two questions. The Commission provided several other suggestions as well. Director Watkins stated that she would take these suggestions under advisement, bring them to the department for discussion and present a couple of examples for the Commission’s consideration at the next available meeting.

**Financial Statements Ending June 30, 2011**

Director Watkins presented the Financial Reports for the Operating, Unlicensed Activity, Education and Research Foundation and Recovery Fund accounts for the twelve months ending June 30, 2011.

**Operating Account**

Director Watkins provided an overview of the statement. Commissioner McCoig asked if the reports are in an accrual accounting or a cash accounting basis. Director Watkins stated that it is on a cash basis as referenced on page three of the report. Vice-Guju stated that the Expenses under Division Office, sub entry Division Administrative Office reflects a different amount for June 30, 2010 than the report they received last year. Commissioner Enzor inquired as to why the expenditure for the Division Administrative Office was $300,000 more than the previous fiscal year under the same category. Director Watkins stated she would have Mr. Zessin review the expenditures and would report to the Commission next month.

**Unlicensed Activity Account**

Director Watkins provided an overview of the statement. Director Watkins stated that this account is like the recovery fund account in that the Legislature allocates a specific amount of spending authority to the department. Commissioner Enzor asked who sets the budget for funds for the Division/Commission. Director Watkins stated that the division completes a Legislative Budget Request (LBR) which is submitted to the department and then the department compiles a department-wide Legislative Budget Request, which is submitted to the Legislature and the Governor’s office. Commissioner Enzor stated that the division needs to increase the budget to cover what the division wants and not necessarily the minimum it get can by with as the money coming in is from the licensees. Vice-Chair Guju inquired when the division will be putting together a budget for the next fiscal year. Director Watkins reported that the process has already started and that the division is in the LBR process now. Vice-Chair Guju asked what the Commission can do to contribute to the process. Director Watkins stated that she can summarize the discussion today in an email and forward it to the Deputy Secretary and copy the Chair and Vice-Chair to ensure that it accurately captures the wishes of the Commission which will set the dialogue in motion. Director Watkins addressed additional questions and comments from the Commission.
Education and Research Foundation Account

Director Watkins provided an overview of the statement. Commissioner Furst reported that Florida Realtors awarded over $260,000 in scholarships including what it received from the division.

Recovery Fund Account

Director Watkins provided an overview of the statement. The Commission entered into discussion and inquired about several issues. Director Watkins stated that she may be able have someone from Finance and Accounting address the Commission's questions in detail, if not in person then via teleconference. Vice-Chair Guju stated agreed that it would be great to have someone knowledgeable and experienced to address the myriad of financial questions from the Commissioners.

Director Watkins provided a summary of the issues she will convey the Commission would like to have a discussion on, which are: the FREAB deficit issue; the allocation of expenses between FREC and FREAB; the recovery fund and what happens when the balance is zero; the unlicensed activity $5.00 appropriation fee; the account balance verses the appropriations balance; and requesting additional full-time investigators or OPS funds.

**Commission’s Comments**

Commissioners thanked Director Watkins and division staff for all their hard work and also how much they enjoy her as their Executive Director.
Vice-Chair Guju stated that the Commission is putting Director Watkins under some pressure and they welcome the open-mindedness and candidness she brings to the position as well as her willingness to work with the Commission. Vice-Chair Guju reported that Chair DeNapoli will be in attendance next month. He further reported that he is pleased that emergency suspensions are being utilized more frequently and that he is looking forward to the additional FREAB financial information.

Vice-Chair Guju stated that it was his understanding that the Governor’s Office is asking for various rules, statutes and regulations to be reviewed for deletion, simplification or amendments and asked when any more rules would be brought before the Commission. Director Watkins responded that generally the rules that appear on the agenda are at the request of Commission counsel. Director Watkins added that regardless of the department’s or the Office of Governor’s recommendations of what has been identified as a potential rule for repeal or amendment, the rulemaking process falls under the purview of the Commission and ultimately the rules will be brought to the Commission for a final decision. Mr. Barnhart stated that the Commission also has the duty to review rules every two years which should be coming up within the next few months or so. Commission Enzor asked whether this was still a work in progress. Director Watkins stated that last spring, the Office of General Counsel completed a comprehensive review to identify rules which it perceived should be repealed or deleted in part for all professions under the department. Director Watkins stated that she will work with Mr. Barnhart to ensure sure that the balance of the rules that the department identified for possible deletion or amendments, possibly one or two more, are brought before the Commission.
